3shape

Learn how to become a TRIOS READY Lab

Please Join Us

An increasing number of dental clinics throughout the US are acquiring the 3Shape TRIOS and are looking for dental laboratories around the country that are ready to receive TRIOS orders- these are called “TRIOS READY” labs.

Join our evening of training to learn more about how to become a TRIOS Ready lab. 3Shape experts will demonstrate the complete workflow starting with scanning in the clinic, on to receiving a TRIOS file from the dentist, digital design, printing the model and finally mailing the end-result.

Dinner Program:

6:00pm to 6:15pm	Welcome with coffee and snacks
6:15pm to 7:00pm	Presentation of TRIOS Ready program and how to become “TRIOS Ready” lab
7:00pm to 7:15pm	Live TRIOS Scanning • Live scan of the patient • TRIOS scanning prepped jaw and sending and receiving orders to the Laboratory.
