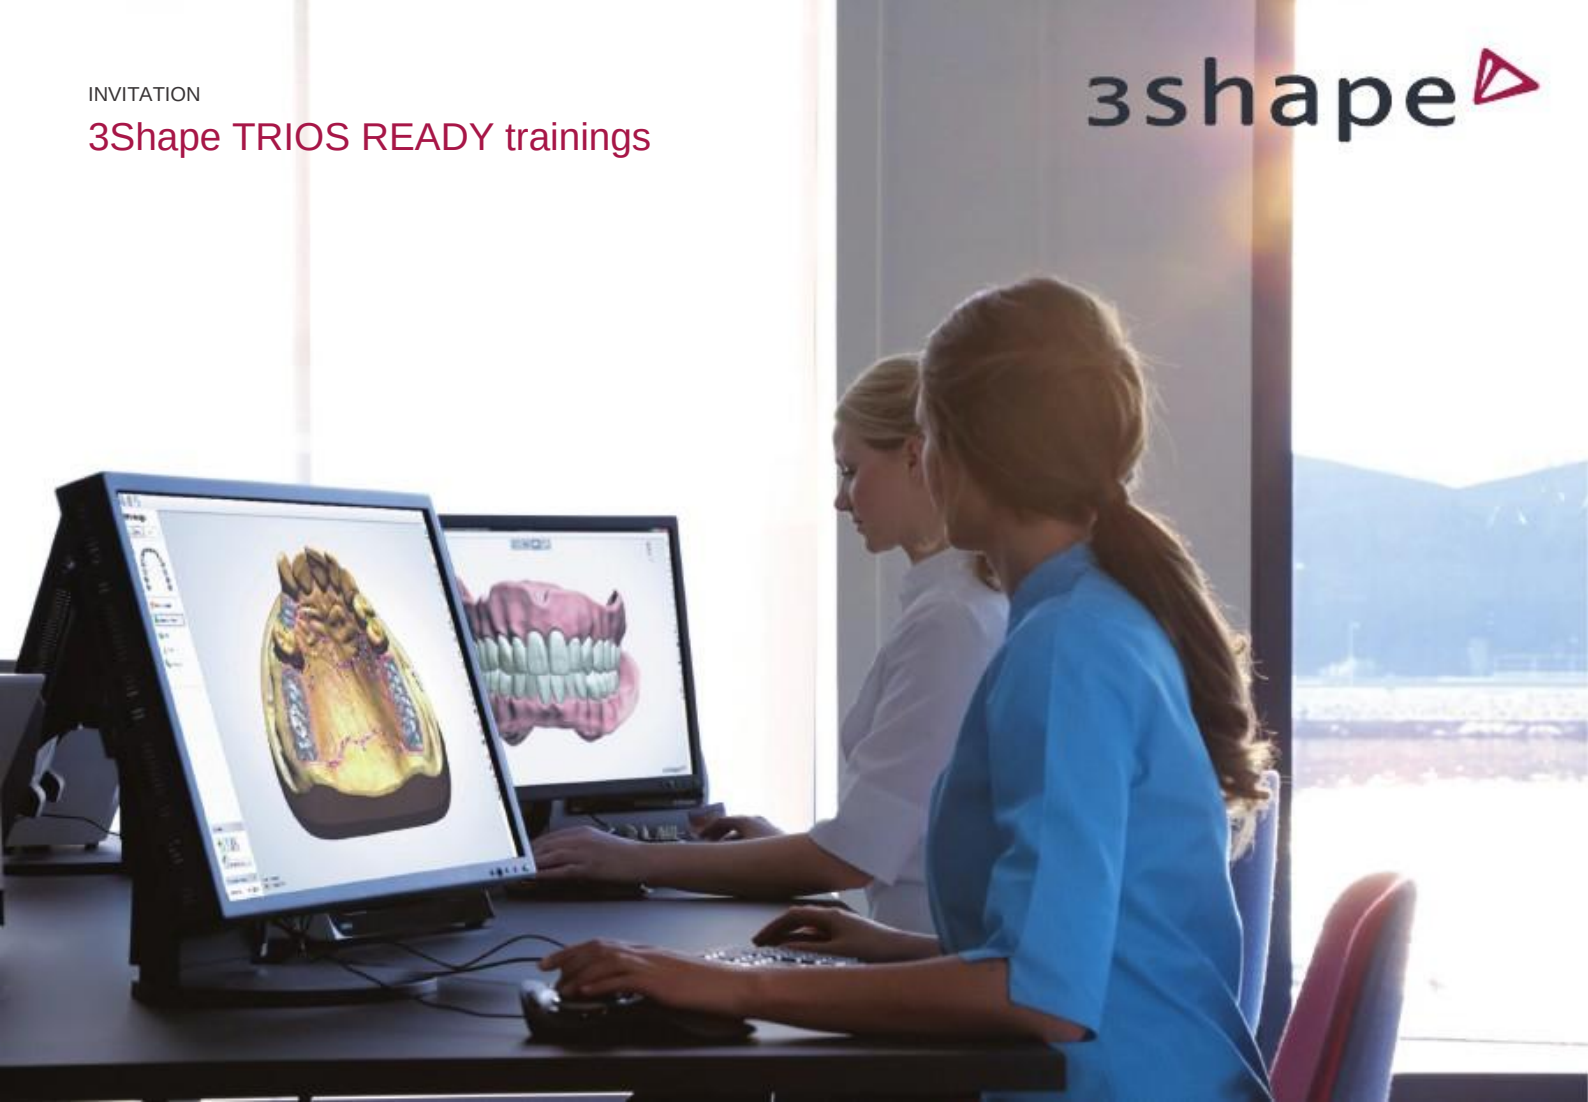
INVITATION

3Shape TRIOS READY trainings



Become a TRIOS® READY LAB

3Shape invites you to our TRIOS® READY training evening. The number of Dentists using TRIOS® is growing every day and they all seek labs, who can receive their orders. 3Shape call these labs “TRIOS® READY LAB’S”.

Join our evening of training and you will learn more about how to become a TRIOS READY lab. 3Shape experts will show you the complete flow starting with scanning in the clinic, on to receiving a TRIOS® file from the dentist, digital design, printing the model, and finally mailing the end-result. We also have the pleasure of serving snacks and beverages during the event.

The training event is open for all 3Shape Subscribers.
See the full training program and pre-register at 3Shapedental.com/triosreadytraining
