

## Yesterday, Today and Tomorrow: a look at demand for CAD/CAM-milled restorations

Source: LMT Research Department, ©2008

Laboratory workload and client demand for CAD/CAM-milled restorations has increased in the past five years and our survey respondents predict both will continue to rise in the next five years:

The **red bar** shows the average percentage of respondents' clients prescribing CAD/CAM-milled units in 2003 and 2008, and forecasts for 2013.

The **blue bar** shows the average percentage of respondents' total C&B case-load that is represented by CAD/CAM-milled restorations in 2003 and 2008, and forecasts for 2013.
